

## News of sponsored children

This photo was taken on Monday 23rd Sept when we visited Chipata Basic School and met these ten children. They looked very happy to be there (not serious as in this photo!!), very smart in their uniforms and pleased to receive the letters and gifts you sent for them. CLinC made sure that all pupils received a gift to help them with their studies.

The remaining three children are at separate schools and we visited these in turn. The only child we were unable to meet was Anderson Mukopamali. He had recently visited his village and been bitten by a snake. We hope he will soon be well enough to return to school.

Thank you again for enabling these children to continue their education.
